This hearing is being held via video conference and phone. Attendees accessing the meeting via the internet will be prompted to register before entering the public hearing. Reasonable accommodations or informational material in an alternative format will be provided for qualified individuals with disabilities upon request. To do so, make a request to Emma Cleveland using the contact information provided below. A request must include specific information and be received at least 10 days before the date of the scheduled hearing.

Availability of the Proposed SIP Documents
Background information and proposed documents related to this SIP submittal can be downloaded on the DNR's Air Regulation Public Notice webpage (http://dnr.wi.gov/topic/AirQuality/Input.html) or hard copies can be obtained, free of charge, by contacting Emma Cleveland as indicated below.

Background
The DNR has prepared this SIP revision to update the motor vehicle emissions budgets (MVEBs) for the Inland Sheboygan County, Shoreline Sheboygan County, and Kenosha County maintenance areas for the 2008 ozone NAAQS. These MVEB updates are necessary to address changes in emission estimates in the EPA's latest approved mobile source emissions model (MOVES6). This SIP revision does not change any emissions control requirements, implement any new regulatory measures or programs, or allow any increase in actual emissions in these areas. This SIP revision is necessary to ensure uninterrupted transportation planning in southeast Wisconsin.

Action Subject to Comment
The DNR is soliciting comment on this proposed SIP submittal.
