Subject:	Deny Racine Diversion Application
Date:	Sunday, March 11, 2018 8:33:12 PM

Adam Freihoefer,

Mr. Freihofer,

I recently learned of the City of Racine's request for a new 7-million-gallons-per-day diversion of water from Lake Michigan for Foxconn's new factory. From what I understand of the Great Lakes–St. Lawrence River Basin Water Resources Compact (Great Lakes Compact) this proposed request clearly violates the intent of the compact. The diversion is primarily for a private industrial use (Foxconn) rather than the public ("largely residential") use as required by the Great Lakes Compact which states, "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community." I also believe the diversion application also does not provide enough detail about the quality of the water that will be returned to the City of Racine and Lake Michigan. For these reasons, the DNR should deny this application.

Thank you for your service and attention to this matter.

Best regards,
David Klann
