Dear Sir or Madam:

I am opposed to the Fox Conn proposal re: using Lake Michigan water for private manufacturing use. I do believe it does not meet the Great Lakes Compact agreement. As soon as we make exceptions like this one, we're opening the door to all sorts of exceptions. The Great Lakes are priceless. We have to be future thinkers—not immediate needs of one manufacturer but of the good of all now in all the generations to follow us.

Thank you.
