Subject: Foxconn water use
Date: Saturday, March 10, 2018 3:00:38 PM

Want to express my concern about the amount of water than Foxconn will be using and just how effectively will they treat the use water before it is accepted into the municipal wastewater facility. UNLESS you can be assured that Foxconn pre-treatment system meets the standards required by the municipality, you should NOT be approving the water use by Foxconn. Our water is a precious commodity!
