Subject:	Deny Racine Diversion Application
Date:	Sunday, March 11, 2018 8:00:23 PM

Adam Freihoefer,

Dear Adam,

As a Wisconsinite concerned about the future of our state's health and economy, I'm writing to express grave concern about the City of Racine's request to divert 7 million gallons of water per day from Lake Michigan to supply Foxconn's operations.

The request day violates the intent of the Great Lakes Compact, which allows that "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community." The diversion application also lacks detail about the quality of the water that will be returned to the City of Racine and Lake Michigan.

For these reasons, the DNR should deny this application.

Thanks for your consideration.

Sincerely,

Tamara Dean
