Subject: diversion of water from Lake Michigan
Date: Thursday, March 01, 2018 1:55:34 PM

Hello Adam,

I am Bob Kinosian and I am writing on behalf of my wife, Sue, and myself to express our extreme concern over the diversion of water from Lake Michigan (~7 million gallons each day) for the private use of Foxconn. Walker and his administration and rubber stampers in the state legislature have rolled back many environmental regulations put in place to protect our environment and our public natural resources in order to benefit a private business with a horrible record - Foxconn. We understand that much of this water (approximately 40%) will be lost to the manufacturing process and this is NOT acceptable! It also violates the spirit/intent of the Great Lakes Compact. History has shown over and over again the negative impact of diverting water out of its natural drainage basin.

Unfortunately, we will be in northern Wisconsin during the March 7th hearing and therefor, unable to voice our strong opposition to this diversion of Lake Michigan water. If this email will be counted as part of the public's input on this issue, please do so. If we need to do anything additional so that our voice on this is heard, please let us know as soon as possible. Thank you.

Sincerely,
Sue & Bob Kinosian
