Subject:	Deny Racine Diversion Application
Date:	Thursday, February 22, 2018 7:23:24 PM

Adam Freihoefer,

I am writing to ask that you honor your duty to the citizens of WI to protect our waters and natural resources. The City of Racine's request for a new diversion of 7 Million gallons a day violates the intent of the Great Lakes Compact as well as the trust of the citizens of WI and the citizens of all the other states who are part of the Great Lakes Compact. The diversion is primarily for a private industrial use (Foxconn) rather than public ("largely residential") use as required by the Great Lakes Compact which states, "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community." The diversion application also does not provide enough detail about the quality of the water that will be returned to the City of Racine and Lake Michigan. For these reasons, the DNR should deny this application.
