Subject:	Application for 7 million gallons per day
Date:	Thursday, February 15, 2018 8:35:55 PM

Dear DNR,

Thank you for the opportunity to provide comments on this application. As a supporter of the Great Lakes Compact and an avid outdoors person I am strongly opposed to it this 40% increase in the water taken from Lake Michigan by Racine. FoxConn has not committed to plans for good water stewardship or treatment or for mitigating the consequences of a breach or other industrial or natural accident. We know from as recently as last summer that this area can flood. I believe that even at times of normal operation and certainly in times of flood, approving this application will pollute the area near the plant and ultimately pollute Lake Michigan.

Thank you for considering my comment.
