Subject:	Comment on FoxConn request
Date:	Monday, March 12, 2018 2:56:55 PM

Dear Wisconsin DNR.

The application for water use from FoxConn should be denied based on Great Lakes Compact rules relating to public use of water (not private).

Also, without knowing the details on how FoxConn will treat, and dispose, of the water, relating to chemical levels and what measures will be in place to mitigate each contaminant, this application should be denied as well.

Please do your job of protecting this precious natural resource, our great Lake Michigan, and reject this unacceptable proposal.

Sincerely,

Isabella Gargiulo
