Hello, I attended the meeting on 3-07-18 to learn more of the plans for the options of the water diversion and making that exception for Foxconn.

After listening to many of the arguments for and against the diversion I am against it. I think most of it was said in the meeting, but as a resident of Racine county my entire life (and plan on living here the rest of my life), I do not think we have enough information to make such a large decision. It is terrifying that the DNR is making this decision without having all the information of what will be going into the lake.

I am against the chemicals/metals going into our lake. As it was said numerous times this is our greatest resource and I do fear this will set a precedent for future businesses to do the same---

I am against the proposal to let Foxconn/Mt Pleasant/Racine divert water.

Thanks!
