Subject:	NO water diversion
Date:	Wednesday, January 31, 2018 4:07:54 PM

Hello DNR,

We need to protect the Great Lakes and honor the Great Lakes Compact. Diverting 7 million gallons of water/day out of Lake Michigan to supply FoxConn property is unacceptable. Pulling half again as much water as the entire city of Racine to support one company is beyond objectionable and not in the best interests of our citizens.

Preserve our natural resources, don't abuse them for foreign corporate interests.
