Subject:	Foxconn Lake Michigan water usage
Date:	Thursday, March 08, 2018 5:16:08 PM

I am writing to voice my disapproval for diverting the amount of water that Foxconn will require. Regardless that Racine water usage fell 41%, the compact was created to keep Lake Michigan water as a public water supply, not to amend the verbage for the sake of industry. If we allow it once, it will potentially open the flood gates for others.

We only have one chance at this. We've already given the green light to fill in wetlands. It's time to give Mother Nature a break.
