Subject:	Lake MI water for Foxconn
Date:	Friday, February 02, 2018 7:14:31 PM

To Whom It May Concern:

I strenuously oppose the plan to give Foxconn 7 million gallons of precious water per day from Lake Michigan. Furthermore, I strenuously oppose the plan to divert $4.5B of WI tax payer dollars to this extremely profitable foreign corporation. Nothing about the Foxconn plan for Wisconsin makes sense from an environmental point of view, but its use (and future abuse) of water and wetlands are among the worst decisions associated with this outrageous scheme.

Sincerely,

Laura Gottlieb
