Please do not approve this application. The site is not within the Great Lakes Basin and the use is not public as anticipated by the compact. Possibly most importantly, too much of the water would not return to the lake. Our lakes are the most precious natural resource we have in the Midwest; we cannot afford to harm them. Further, the specifics of the use, treatment, etc. of the water by Foxconn are too unknown. Ultimately this is a move that would hurt the lake and therefore hurt Wisconsin. It is not in our interest and we should not support corporate interests to the detriment of such a valuable resource. Please act to protect our water.

Respectfully,
Daniel Murphy
