Subject:	Foxconn Water Request
Date:	Tuesday, March 13, 2018 8:54:30 AM

Dear DNR,
I do not support diverting 7 million gallons of Lake Michigan Water to the proposed Foxconn manufacturing facility in Racine County. The daily loss of “returned” water is too great and the potential of chemical contamination of the actual returned water is to large. There does not appear to be any alternatives that will remediate these concerns.
Please do not approve the Foxconn request.
