My name is Sharon Grinker and I am a resident of Shorewood, WI. I am opposed to the diversion of water from lake Michigan to the Foxconn project in Racine. I believe it is very important for all parties, government and private to follow the requirements of the Great lakes Compact. I believe that the Great Lakes are a precious resource, we are lucky to live near or on them and we are responsible to take care of this great supply of freshwater. If Wisconsin does not protect its water, other states and countries will also not protect their watersheds and coastline and water supplies. This is a bad course to follow. I am not able to attend the public hearing in Racine tomorrow night but I am writing to express my opinion to the Secretary of the DNR. Thank you.
