Subject:	Public Comment Re: Public Notice of an Application to Begin a Diversion of Great Lakes Water by the City of Racine
Date:	Tuesday, February 06, 2018 9:36:39 PM

To Whom It May Concern,

I am writing to provide you with my concerns regarding the Application to Begin a Diversion of Great Lakes Water by the City of Racine. The daily removal of over 7 million gallons of water from Lake Michigan is not an action that I, as a resident of Wisconsin, support. We must protect our waterways from contamination. The Great Lakes are one of a kind, as Wisconsinites, we must all work to protect this resource. Provide the public with more details about ensuring the safety of our land and water that will be used by Foxconn. Do not move forward without guarantee the protection of our natural resources.

Thank you. I look forward to your response.
