Subject:	Racine Water Diversion Request - Foxconn
Date:	Thursday, March 08, 2018 6:42:13 AM

I support the request from the City of Racine Water Utility to divert up to an annual average of 7 million gallons of water a day in the straddling community, the village of Mount Pleasant to support the Foxconn development. It is important to note that the Racine Water Utility currently has approved capacity to supply the proposed diversion amount and would not need a new or increased withdrawal to meet the projected diversion demand.

The Foxconn development has the ability to add a key economic engine to southeast Wisconsin's economy.

Thank you.
