Dear Ms. Howards,

Thank you for your comments regarding the Foxconn project. I am sending your comment to the primary contacts for this project here at DNR and I am certain that you will have an opportunity to speak to someone regarding your concerns. If you do not hear back from someone by the end of the day on Monday, will you please email me directly so that we can provide you the opportunity to comment and learn about the process DNR is using to review this project?

My name is Lisa Helmuth and my email is lisa.helmuth@wisconsin.gov. I'm a technical staff person at DNR.

Thank you again for sharing your concerns. I appreciate your sense of urgency and thank you for caring about our water resources.

We are committed to service excellence.
Visit our survey at http://dnr.wi.gov/customersurvey to evaluate how I did.

Lisa Helmuth

I am gravely concerned about Foxconn using 7 million gallons of water/day out of the Great Lakes. I know they are to return some of the water (approx. 5 million gallons), but will that water be polluted by their industry? I feel that this state and the DNR have lost all interest in protecting our environment. I am 71 years old and will be long dead but I will have grandchildren that will pay the price for our greed and stupidity! So disappointed in everybody :-(
