Subject: Diversion of LK Mich water
Date: Tuesday, February 27, 2018 8:36:53 AM

This requested diversion, for a private company benefit, appears to be an affront to the intended purpose of the Great Lakes Compact. While loopholes in the actual language of the Compact may not clearly address this proposal, it is clear the Compact was created to avoid lake water withdrawal for a private project like Foxcomm. I see no difference from the Foxcomm proposal and a private company requesting access to Great Lakes water to export that water to a foreign country. Please protect the Great Lakes from exploitation for private gain.
