Hello-

Please deny the City of Racine application as it stands for the following reasons:

1. The Foxconn facility is not located within the Great Lakes Basin.

2. The water delivered to Mount Pleasant to a private foreign corporation! According to the Great Lakes Compact, it is a requirement for the water diversion to be delivered to the public.

3. Nearly 40% of the water will be lost in the manufacturing process. How will this water be treated, managed, or disposed?

Thanks,
Kaitlin
