Subject:	Deny Racine Diversion Application
Date:	Thursday, February 22, 2018 12:55:50 PM

Adam Freihoefer,

Dear Wisconsin DNR
The City of Racine's request for a new diversion of 7 Million gallons a day violates the intent of the Great Lakes Compact. The diversion is primarily for a private industrial use (Foxconn) rather than public ("largely residential") use as required by the Great Lakes Compact which states, "all the Water so transferred shall be used solely for Public Water Supply Purposes within the Straddling Community." The diversion application also does not provide enough detail about the quality of the water that will be returned to the City of Racine and Lake Michigan. For these reasons, the DNR should deny this application.
I find this giveaway of Great Lakes water, the take away of personal lands, the diversion of tax tax dollars, The miss-appropriation budget monies, all very corrupt and unethical if not illegal. This business will not benefit the whole state but line a few with the wealth of the majority. We don't support this type of gross public financing and pollution enabling type of private business. Let Capitalism work, this company would not succeed without our state legislators neglectful disregard of their duties.
Please deny this application
Thank You
