Land Use Advisory Committee:

The mission of the Land Use Advisory Committee of the Wisconsin Conservation Congress is to provide citizen input in the use and management of Wisconsin's terrestrial ecosystems, both public and private, on behalf of all those who utilize these resources. The committee will promote diverse healthy ecological communities, support control of invasive species, promote environmentally sound sustainable timber harvest, and encourage the compatible use of our public lands, parks, and trails for the diverse interests of those who recreate in our state. Further, the committee will explore opportunities for increased access to land for outdoor recreation including nature based activities.
