II. INFORMATION & ACTION ITEMS

A. Discussion on public input received regarding season framework Taylor Finger

DISCUSSION	Taylor noted that the only major change from the public input was the Scaup season on the Mississippi River. He noted with the input from the DNR Migratory committee and some of the other online input that the Southern Zone Scaup season should be changed from the proposed 2 scaup for the first 15 days and 1 scaup for the next 45 days; to 1 scaup for the first 15 days and 2 scaup for the next 45 days.	
ACTION	Ray Heidle moved to have the scaup season for the southern zone set at 1/15 and 2/45 as proposed by the DNR Migratory committee and the on line input. 2nd by Paul Gettelman MOTION PASSED	
PERSON(S) RESPONSIBLE	DEADLINE	

B. Decision/Discussion on 2022 Migratory Game Bird season Framework Taylor Finger

DISCUSSION	Ray Heidle questioned why the goose season wasn't seperated out with the duck season. Taylor noted this was an accidental over sight by the department. Ray also asked about the seasons being set in a 5 year span when it orginally were to be 2years then 3 years. This would be where the DNR would set the season frame work for 5 years then when the feds come up with theirs, the DNR would adjust theirs to match the FEDS. Ray felt that not discussing the frame work for 5 years would defeat the purpose of the WCC Migratory Committee. This change will start for 2023--2025 and then the next one would be 2025--2030. The bag limit would still be adjustable. The Teal Season will be discussed at a future meeting
