Mississippi River Advisory Committee:

Within and to the support of Wisconsin Conservation Congress process; it is the mission of the Mississippi River Committee (MRC) to advise the Wisconsin NRB and Department of Natural Resources on issues, rules, or policies which affect the river and/or other associated natural resources.

The MRC strives to stay acquainted with current river resource management; the science in support or opposition to that management; and with public opinion thereof. The MRC encourages river management agencies to seek public participation in management decisions or policy. Influence stemming from the MRC shall be generated with greatest intentions toward long term benefits to all fish and wildlife resources; and with an emphasis toward preserving public access and harvest of game resources, (i.e., preserving outdoor heritage activities of hunting, fishing, and trapping).
