Trout Advisory Committee:

The mission of the Trout Committee of the Wisconsin Conservation Congress is to provide input from the public through county delegates assembled from areas throughout the state of Wisconsin making up that committee and addressing issues where public input is deemed appropriate on matters of cold water resources including the flora and fauna that make up those resources.

These issues include but are not limited to:

1. Water quality
2. Water resource management
3. Class and category water designations
4. Bag limits
5. Tackle restrictions
6. Season framework
7. Environmental practices effecting cold water resources

8. Enforcement policies
9. Any other business that would come before the Committee

The charge of the Trout Committee is to ensure that the cold water resources of the state of Wisconsin are not degraded or impaired in any manner, with the necessary steps taken to improve them whenever and wherever possible.
