Project Description Summary
Florence County would like to rehabilitate two sections of trail F2 in Florence County, located south of County Highway D in the Town of Commonwealth. This trail is maintained year round as an ATV-UTV and Snow trail and serves as a connector to Corridor 2 which connects to Michigan to the east and west. Corridor 6 which connects to Marinette County to the south and Forest County to the west. These two sections of trail total approximately 3000’ in length by 12’ wide equating to roughly 826 acres. Trail work will consist of trail clearing and the removal of a blind corner in which there have been several near accidents and one documented accident in the summer of 2021 in which the Sheriff’s Department has asked us to make a change to help increase visibility and safer passage of UTV’s through out problematic areas in this trail section. I have included a copy of the email for review. We will place 125 yards of ore to raise low spots where water pooling is a problem. We will also be placing 125 yards of gravel 6” thick compacted to 4” through out these areas also. The entire trail will then be dressed up with existing and added gravel and re-crowned using a grader and reclaimers where possible.

- I certify that all maintenance land use agreements are on file.

Subject: safety concern with trail F2

Hey Patrick, just a safety concern with trail F2 between County D and Pine River road. This trail is extremely narrow with numerous blind corners. Is there any possible way your department can/willing to address this??
We recently had an ATV accident in this portion of the trail due to a blind/narrow corner.

Thanks Pat
