Project Description Summary

Barron County along with the Chetek Snow Flyers & ATV Cruzers propose to rehabilitate a 1.38 mile section of off-road ATV/UTV trail southwest of the City of Chetek. When this trail was originally established it was done at minimal expense and was built on native soils. Due to ATV/UTV traffic this has eroded the native soils exposing tree roots and has become difficult to maintain. The Chetek Snow Flyers & ATV Cruzers have explored other options but have determined that the only reasonable solution is a complete rehabilitation of this 1.38 mile section. Rehabilitation will include grading the trail surface to get to a flat and level starting point and then installing 6" of compacted gravel to the trail surface to create a workable surface to grade and maintain a trail that will shed water to avoid pooling of rainfall and erosion. This is a summer ATV/UTV trail that is open from 05/01-11/1 annually.

Trail Project Detailed Description

Barron County along with the Chetek Snow Flyers & ATV Cruzers propose to rehabilitate a 1.38 mile section of off-road ATV/UTV trail southwest of the City of Chetek. When this trail was originally established it was done at minimal expense and was built on native soils. Due to ATV/UTV traffic this has eroded the native soils exposing tree roots and has become difficult to maintain. The Chetek Snow Flyers & ATV Cruzers have explored other options but have determined that the only reasonable solution is a complete rehabilitation of this 1.38 mile section. Rehabilitation will include some tree/stump removal, reworking several corners to increase safety, grading the trail surface to get to a flat and level starting point and then installing 6" of compacted gravel to the trail surface to create a workable surface to grade and maintain a trail that will shed water to avoid pooling of rainfall and erosion. This is a summer ATV/UTV trail that is open from 05/01-11/1 annually.
