**Project Description Summary**

Burnett County is requesting funding for a bridge rehabilitation project on Snowmobile/Winter ATV Trail 130 in northern Burnett County. This 42'x12' bridge was installed in 2000, and is rated for 12,000 pounds. We propose replacing the bridge deck and bringing the bridge up to a 25,000 pound load rating, as well as installing new guardrails along the approaches for safety. Trail 130 is open to snowmobile and winter ATV use, and is an important connector between Corridor Trails 41 and 8.

### Bridge Project Detailed Description

Burnett County is requesting funding for a bridge rehabilitation project on Snowmobile/Winter ATV Trail 130 in northern Burnett County. This 42'x12' bridge was installed in 2000, and is rated for 12,000 pounds. The bridge deck is very worn and in need of replacement. We propose replacing the bridge deck and adding steel supports to bring the bridge up to a 25,000 pound load rating. The existing wooden guardrails are in disrepair, so we also propose installing new guardrails along the approaches for safety. Trail 130 is open to snowmobile and winter ATV/UTV use, and is an important connector between Corridor Trails 41 and 8.
