**Bridge Project Detailed Description**

In 2024 one of the boardwalks on the atv trail near the Smith Lake campground failed and the trail had to be closed. Upon inspection, the 2 inch decking used for each of the boardwalks and the bridge is deteriorating and not of sufficient thickness. This short stretch of trail is also in need of some gravel so that it can be graded to allow safe two way traffic. If funded, this project will replace the old decking on the existing boardwalks and add sufficient gravel to the trail surface making periodic maintenance feasible.

North Boardwalk = 74 feet  
 Middle Boardwalk = 145 feet  
 South Boardwalk = 42 feet
