Trail Project Detailed Description

Develop/rehab .39 miles of existing trail corridor to be added to the funded trail system. Trail needs to be built up using material, grading and ditching done, and install/replace 4 culverts.

Currently Joe Pajac Rd is the only route from the corridor to Pagac's Bar for riders to get to food, fuel and parking. Town of Keystone will be closing Joe Pajac Rd to ATV's UTV's later this year. Some riders use this trail as it is, but it is very rough and very muddy. Improving the trail, will keep ATV/UTV's off the closed town road.
