Project Description Summary

Jackson County Forestry and Parks proposes to rehabilitate 4600 feet of trail on both sides of McKenna Road. The trail is located on a hill sloping down towards McKenna Road and a small creek. This trail is very sandy and erodes causing washouts and siltation into the creek during rain events. The top of the hill has eroded down to sand stone that is then carried by the groomer down hill causing trail damage.

The project would be to add 12 inches of 1 1/2 gravel plus fines that is compacted down to 8 inches this will eliminate further trail erosion.

This trail is open to ATV's year round and UTV's in the summer.

I certify that all maintenance land use agreements are on file.

- Yes No Will this project be located near or cross any wetland?
- Yes No Will this project involve land disturbance – including clearing and grubbing – of 1 acre or more of land? (Less than 4/10th mile for a typical trail) [DNR Storm Water Contact List](#)

Trail Project Detailed Description

Jackson County Forestry and Parks proposes to rehabilitate 4600 feet of trail on both side of McKenna Road. The trail is located on a hill sloping down towards McKenna Road and a small creek. This trail is very sandy and erodes causing washouts and siltation into the creek during rain evens. The top of the hill has eroded down to sand stone that is carried by the groomer down hill causing trail damage. The rail is heavily used and groomed weekly in the summer that th sand has no binder left to hold it in place.

This project would add 12 inches of 1 1/2 gravel plus fined that is compacted down to 8 inches this will eliminate further trail erosion.

The County will contract out the rock and trucking to the low bid. The department will furnish the dozer and operator to level the rock.
