

Motorized Recreation Grant Application

For: (choose all that apply)

Form 8700-159 (R 02/2024)

Page 1 of 5

Due Date: April 15

- ☒ ATV/UTV Trail Aid
☐ Snowmobile Trail Aid

Notice: Completion of this form is required under Wisconsin Statutes 23.09(26) and 23.33. Failure to complete this form will result in denial of financial assistance. Personally identifiable information found on this form is not intended to be used for any other purpose. The Department of Natural Resources (DNR) may provide this information to requesters as required by Wisconsin's Public Records law {ss. 19.31 – 19.39, Wis. Stats.}.

Instructions: Applications may combine more than one source of funds. They may be submitted for consideration of traditional ATV, UTV, Snowmobile and Motorized Stewardship funding. Submit one copy of all forms and attachments. See Page 2 for necessary attachments. Send applications to your [Community Services Specialist](#).

Project Description Summary

Oconto County proposes to rehab 2 segments across 2 numbered troutes (2329 and 3163A) on USFS land. Rehab includes adding aggregate to fill in pot holes deeper than 4 inches and blading aggregate to blend in with existing surface prism. Rehab existing drainage structures and ditching. May include tree removal as well. These are open to ATV/UTV Summer only.

Oconto County also proposes to rehab 1 segment across troute 2221AA on USFS land. Rehab includes removal of existing water bars on the hillside and installation of recycled asphalt material along the section of trail as it traverses a hillside. Trail is open to summer ATV/UTV and winter Snow only.

Total Cost estimate is \$62,000 but Trout Rehab is only eligible for 50% funding, so the request is \$31,000. Oconto County will cover the remainder 50% of funding.

☒ I certify that all maintenance land use agreements are on file.

- ☐ Yes ☒ No Will this project involve land disturbance – including clearing and grubbing – of 1 acre or more of land? (Less than 4/10th mile for a typical trail) [DNR Storm Water Contact List](#)

Trail Project Detailed Description

Rehab Summer ATV/UTV Troute 2329 and 3163A segments to fill in pot holes, cover large boulders, remove bank corners, improve travel for safety, and keep riders on trail area instead of going off trail to avoid hazard areas. Utilization of pit run to create a base in larger pot holes deeper then 4 inches and cap with 3-4 inches of 1 1/4 inch gravel. This will create a groomable surface tread for the club to maintain. Currently the large boulders and pot holes make it challenging to groom these sections. Having a gravel surface will provide for safer travel by ATV/UTVs by removing water hazards and off trail riding.

Rehab Summer ATV/UTV Troute 2221AA segment by adding recycled blacktop 4" in depth to the trail surface as it traverses the hill. The section of trail would be roughly 400 feet in length. The hill currently has 3 water bars on it to prevent washout. The current water bars fill in with substrate from trail use and rainfall and require clean out every couple of weeks to ensure their effectiveness. The installation of the recycled blacktop would be a more permanent solution and prevent the need for constant maintenance to remain effective and keep the trail safer for users.
