PROJECT DESCRIPTION SUMMARY

The ToB (Town of Barnes) is requesting funds to build a Municipal Campground along with area trail improvements. Our town and to a large extent, the area around Barnes, has seen an influx of increased ATV/UTV traffic. With this increase, we are seeing more wear and tear on our trail systems. Though we do get some assistance from Bayfield County for gravel, it doesn't quite cover the cost of a long term trail improvement or sustainment program. We along with our ATV clubs, plan on widening the trail to the north of the potential campground. When it comes to the campground, the common theme among visitors to our town is that there is not a lot of ATV/UTV friendly places to stay. The closest one would be Drummond which also got this grant to fund theirs. The town has already invested into this project by bringing power closer to the proposed site which cut the overall cost down quite dramatically. In conclusion, tourism is our bread and butter here in the northwoods, and having improvements to our trails along with this campground, will not only benefit local businesses, but the state as well.
