Project Description Summary

Florence County would like to develop an ATV/UTV trail in the Town of Commonwealth. This 2.04 mile trail will provide a ~~year-round~~ connection between the Towns of Aurora, Homestead, Commonwealth and Florence. For years there was no connection between The Town of Aurora and Florence but that changed in 2018. An adjacent private landowner gave us verbal permission to access their property and make the connection. This unfunded trail section goes through State, County, and private property before connecting to Ellis Lane, a designated road route in the Town of Homestead. Currently this trail goes through private property and farm field but we have an issue with disrespectful riders. We need to relocate this trail to a different area that uses part of a currently funded snowmobile trail and moves riders to the front of their property to eliminate the problem. We have estimated that we will need 2300 yards of crushed ore 6" thick and 2300 yards of gravel 6" thick compacted to 4". This was a sought after connection for about 10 years and now is one of the most important connections in our entire trail system. Without this connection Aurora will face an economic impact.

Per the County, this trail will only be open for ATV/UTV use as a summer trail at this time.

I certify that all maintenance land use agreements are on file.
