Good Afternoon Jeff,

Vilas County would like to request additional funds for ATV-4591, the Sayner Connector Trail Development. This request is due to some miss communications between Vilas County and The Northern Highland American Legion(NHAL) State Forest as far as engineering the project. There is a need for engineering due to 2 step grades on this proposed trail section. The engineering quote is \$24,500.00. We are also requesting an additional \$5,500.00 for additional gravel in possible fill on this trail development for a total request of \$30,000.00 increase to the \$56,600.00 funding already approved. New funding total would be \$86,600.00. Attached is the copy of the Scope of Service from MSA. It should also be noted that we are not pursuing ATV-4593 due to issues of it being substantial underfunded in our request. This will be turning \$66,088.00 back to the program.

If granted, we can proceed with the first ATV/UTV trail on the NHAL forest in Vilas County. We definitely want to do this first one correct with hopes of developing more on their forest. If there are any questions, please contact me.

Thank you,
Todd

Todd Bierman
