Project Description Summary

This application is for additional funds for Grant ATV-5861. The original grant was funded for \$27,690.00. This project was bid out and all bids received were significantly higher than the grant amount. Contractors stated the the condition of the trail and location in relation to pits were the reasoning for the high bids. Below is the original project description.

This application is for rehabilitation of 2.4 miles of summer ATV Trail 40 from FR 162 west. Starting at FR 162 going west 0.24 miles will be rehabbed along with a 0.56 mile section that starts 1.6 miles west of the first section. Additionally, the 1.6 miles between the two rehab sections will have some light grading/shaping work done to remove large rocks to allow access to the second rehab section. This portion of the trail currently has very poor rocky quality material on it and has poor drainage. The rehab sections section of trail will need to be shaped and have four inches of pit run and 3 inches of gravel 8 feet wide placed down and crowned.

I certify that all maintenance land use agreements are on file.

Estimated Cost

Maintenance	Acquisition	Insurance	Development	Bridge Rehab.	Trail Rehab.	Total Estimated Cost
					\$21,985.00	\$21,985.00
