Section 2: Project Information Required for all Projects

Project Title Village Elmwood - Nelson Bridge Replacement						Current Funded Miles 237.9	New Miles (if applicable)
County Pierce	Township 27 N	Range 15	Section 36	¼ ¼ NE	¼ NE	GPS Coordinates: Lat. 44.7832519 Long. -92.1389047	

Project Description Summary

The current bridge, on a primary connection to Dunn County, is a 40+ year old, club-designed structure from the 1980s, has 2 narrow spaced I-beams that sits unsecured on four closely spaced power pole sections. 3 of the 4 poles are beginning to rot internally and are partially hollow at the top. The I-beams are approximately 6 feet apart (outside to outside). Currently groomed with heavy tracked tractors, which have a wheelbase of about 8 feet. Consequently, there is no main structural support beneath the groomer, leaving only the wooden deck and the 3x3 square tubing (spaced every 6 feet for the railing) to prevent the groomer from falling through. Additionally, minimal rip-rap remains to protect the supports, and the wooden deck is rotten and in poor condition. The proposed project includes removing the existing bridge, clearing large trees and stumps from the supports, installing new abutments and rip-rap, and setting a new steel truss bridge.

Thank you for considering this critical infrastructure improvement.

Bridge Project Detailed Description

I'm writing the grant request to bring to your attention the urgent need to replace a bridge on a trail that serves as a primary connector into Dunn County. Modified to and approved as a re-deck last year, it has since been discovered that the 3 of the 4 support poles are rotting on the inside and are partially hollow. It may be a better use of funds to replace it at this time.

The current bridge is a club-designed structure from the 1980s, featuring a narrowly spaced I-beam design that sits unsecured on four closely spaced power pole sections. These poles are beginning to rot internally and are partially hollow at the top. The two I-beams are approximately 6 feet apart (outside to outside), which may have been adequate for the older Tucker grooming unit. Currently, larger and heavier tracked tractors are used for grooming, which have a wider wheelbase of about 8 feet. Consequently, there is no main structural support beneath the groomer, leaving only the wooden deck and the 3x3 square tubing (spaced every 6 feet for the railing) to prevent the groomer from falling through. Additionally, minimal rip-rap remains to protect the supports, and the wooden deck is rotten and in poor condition. Although I don't have exact dates, I was informed that no funded work has been done on this bridge in over a decade, but the deck's condition suggests it has been much longer. The proposed project includes removing the existing bridge, clearing large trees and stumps from the supports, installing new abutments and rip-rap, and setting a new steel truss bridge.

Thank you for considering this critical infrastructure improvement.

RESOLUTION NO. 24-02
AUTHORIZATION TO APPLY FOR SNOWMOBILE TRAIL PROGRAM STATE AID

WHEREAS, Pierce County is interested in providing, maintaining, acquiring, insuring, and developing lands for public snowmobile trails throughout the county; and

WHEREAS, said public snowmobile trails are eligible for snowmobile stewardship grant funds; and

NOW, THEREFORE BE IT RESOLVED, that the Pierce County Board of Supervisors authorizes the County Park Superintendent and Assistant Park Superintendent to act on behalf of Pierce County and to submit an application to the State of Wisconsin Department of Natural Resources for any financial aid that may be available, sign documents, and take necessary action to undertake, direct and complete the approved project.

Dated this 16th day of April, 2024.

Jonathan E. Aubart, Chairman
Pierce County Board of Supervisors

ATTESTED TO BY:

Jamie Feuerhelm, County Clerk

APPROVED AS TO FORM AND LEGALITY BY:

Bradley D. Lawrence, Corp. Counsel

Adopted:

APR 16 2024

**SNOWMOBILE TRAIL
LAND USE AGREEMENT
PIERCE COUNTY, WISCONSIN**

This **AGREEMENT** made this 15th day of April, 2025, by and between Greg and Vicki Nelson, of Pierce County Wisconsin, **GRANTOR**, and Pierce County Snowmobile Council Club and East Side Renegades Snowmobile Club, **GRANTEE**.

WHEREAS, the **GRANTEE** through its Pierce County Snowmobile Council, desires to construct the aforementioned snowmobile trail in a no less than twelve foot wide and not to exceed a sixteen foot wide corridor, on and across the property of the **GRANTOR**.

NOW THEREFORTH in WITNESSETH:

The **GRANTOR** offers to the **GRANTEE** the right commencing on the 1st day of November of the year, through the last day of March of the following year to construct, operate and maintain a public snowmobile trail on, over and across the following described property.

Spring Lake Township, T27N R15W Range 36 Section

In order to accomplish the purpose of this agreement, the **GRANTEE** intends to place or construct the following item (s) on the above stated property.

 Gate X Bridge X 16 Foot Corridor X Other (10 year land use agreement until 2035)

All Physical improvements remain the property of the **GRANTEE** and may be removed when the property ceases to be used as a snowmobile trail.

It is understood by both the **GRANTOR** and the **GRANTEE**, that this agreement is subject to the following conditions:

- 1) **GRANTOR** shall not incur any expense for the construction or operation of the snowmobile trail.
- 2) This agreement is non-transferable by the **GRANTEE**.
- 3) No unnecessary removal of vegetation will be done. No trees shall be cut without permission from the **GRANTOR**. Any trees cut will remain the property of the **GRANTOR**.
- 4) **GRANTEE** shall indemnify and hold harmless for injury to person or property arising from the use of snowmobiles on the described property. Further protection provided to property owner, is identified under Wisconsin's Recreational Use Statute 895.52.
- 5) Necessary fence removal shall be only by approval of the **GRANTOR** and any replacement shall be made by the **GRANTEE**.
- 6) This agreement shall be automatically self- renewing for successive periods of one year.
- 7) **GRANTOR** may terminate this agreement only by giving written notice thereof by certified or registered mail at the **GRANTEE'S** mailing address set forth below to **GRANTEE** prior to September 1st of any year.
- 8) Additional conditions will be valid if enumerated on the reverse side of this document and initialed by both parties.

to me

Travis

Here is the budget pricing for your project we talked about on the phone last week.

Continental Pedestrian Bridge
Length – 90'-0" Long (out to out of end verticals)
Width – 12'-0" Wide (Clear between rub rails)
Style – Connector H-Section
Finish – Self Weathering Steel
AASHTO LRFD Design
90 PSF Live Load
H-10 (20,000 LB) Vehicle Load
Bridge to be designed to accept a 6-inch-thick **cast-in-place concrete** deck
Side Dams and End Dams included
Galvanized Form Decking included
Concrete and steel reinforcing to be supplied and installed by others
Steel Toe Rail
Nominal 5/4x6 IPE Wood Rub Rail
Horizontal Steel Safety Rails
Bearing Pads
Steel Cover Plates on both ends of the bridge

Bridge to be shipped in Two sections

Total Budget Number = \$148,000.00 Plus Tax if applicable (Delivery to Pierce County, WI included)

Continental Pedestrian Bridge
Length – 90'-0" Long (out to out of end verticals)
Width – 12'-0" Wide (Clear between rub rails)
Style – Connector H-Section
Finish – Self Weathering Steel
AASHTO LRFD Design
90 PSF Live Load
H-10 (20,000 LB) Vehicle Load
Nominal 3-inch-thick Treated Wood Decking
Steel Toe Rail
Nominal 5/4x6 IPE Wood Rub Rail
Horizontal Steel Safety Rails
Bearing Pads
Steel Cover Plates on both ends of the bridge

Bridge to be shipped in Two sections

Total Budget Number = \$160,000.00 Plus Tax if applicable (Delivery to Pierce County, WI included)

Continental Pedestrian Bridge
Length – 110'-0" Long (out to out of end verticals)
Width – 12'-0" Wide (Clear between rub rails)
Style – Connector H-Section
Finish – Self Weathering Steel
AASHTO LRFD Design
90 PSF Live Load
H-10 (20,000 LB) Vehicle Load
Bridge to be designed to accept a 6-inch-thick cast-in-place concrete deck

Guidelines for Applicant

Complete this form for each bridge structure you are submitting a grant application for. Provide any additional documents not requested on application checklist to substantiate your points, including actual deeded easements.

Category		Possible Points	Actual Points
1	Condition of the Structure (max of 10 points)		
	Has a certified bridge inspection report that supports the project & demonstrates need (see example, must provide copy of report by August 1 for 2024 only)	10	10
2	Permits (maximum points 4)		
	Consultation with DNR Water Mgmt Specialist has occurred & permit is likely, if needed	1	1
	Permit in hand / Bridge already permitted	3	
3	Funding (maximum points 2) Are other funds already committed?		
	50% or greater from other funding source(s)?	2	
	11% - 49% from other funding source(s)?	1	
4	Length of Written Easements or Land Use Agreement (max points 5)(ch. 23.09(26)(am)1 WI Stats)		
	On public land (County, State, Federal)	5	
	10 or more year deeded easement on private land or other public land, for <u>all portions of that trail to the nearest road</u> on each side of the bridge	5	
	3-9 year deeded easement on private land or other public land, for <u>all portions of that trail to the nearest road</u> on each side of the bridge	4	
	10 or more year deeded easement on private land or other public land, for <u>just the bridge site</u>	3	1
	3-9 deeded easement on private land or other public land, for <u>just the bridge site</u>	2	
	10 or more year land use agreement (LUA, not deeded) on private land or other public land	1	
	3-9 year land use agreement (LUA, not deeded) on private land or other public land	0	
5	Miles Impacted – How many miles will need to rerouted if the structure is not replaced? Measured from nearest intersection on both sides of the bridge. (max 4 points)		
	Less than 20 miles	1	
	20 miles or more	3	3
	No other snowmobile trails connect. Explain:	4	
	DEDUCTIONS		
6	County Active Project Deduction (maximum deduction 1 point) A snowmobile active project is one that has exceeded it's initial grant period.		
	Two or more active projects - deduct 1 point	-1

Structure Specific Notes

Structure is a steel girder Bridge. 18" x 7.5" x 1/2" steel girders. There is some distortion of the west girder, minor section loss and freckled rust widespread on both girders. Abutment are 11" round pilings topped with 12" x 8" x 1/2 I-beam. Good condition. The wooden deck is in very poor condition, with severe decay on many of the boards. Deck should be replaced. Channel is in good condition.

5/28/24 Bradley A. Taplin

Bradley A. Taplin Insp. No. 6522
