Project Description Summary

Forest County Forestry and Recreation would like to request funding to replace decking on 3 bridges, 2 on the Nicolet State Trail and 1 on the Wolf River State Trail. These bridges are located on the two main trails that run through Forest County. The high traffic has caused the decking boards to become splintered, rotted, worn and some are warped to the point where they are loose and can no longer be bolted back in place. These bridges serve atv/utv and snowmobile riders all year round.

Range Line Bridge located on the Nicolet State Trail in the Town of Wabeno

Torpee Bridge located on the Nicolet State Trail in the Town of Wabeno

Swamp Creek Bridge located on the Wolf River State Trail in the Town of Lincoln

Forest Co proposes to split this project 50/50 with ATV/Snow funds.

I certify that all maintenance land use agreements are on file.

Bridge Project Detailed Description

Torpee Creek Bridge located on the Nicolet State Trail is in need of a new deck. The current surface of the bridge deck is in rough shape and could cause harm to multiple different user groups that use the trail system. The deck is worn, splintering, warped, screws missing and in some places holes in the deck. These issues could cause an uneven riding surface causing a hazard for those who are crossing the bridge. Photos will be attached demonstrating the need for a new deck surface on the Torpee Creek Bridge.
