Project Description Summary

As a result of the 2022 funded reroute of Trail 8 the Iron County Forestry Department proposes to construct a snowmobile trail for 1.06 miles adjacent to Island Lake Rd on County Forest property from the intersection of Trail 8 & Island Lake Rd to Snaketrack Rd. Snaketrack Rd is a County Forest Road which is only plowed when there are forestry operations in the area. As part of this project Snaketrack Rd would become a funded trail for 4.4 miles. This project would eliminate 1.36 miles of plowed route and .97 miles of trail 8 that runs under a power line, through some wetland and across several driveways. The net increase would be 4.49 miles.

This project will give the snowmobiler a much better experience as the north end of Snaketrack is often plowed by the Town of Knight to the shooting range. This project will eliminate that segment.

I certify that all maintenance land use agreements are on file.

Trail Project Detailed Description

1.06 miles of trail will be constructed with tree removal, brushing with fecon mower, stumping with excavator and shaping the trail with the dozer. The trail will parallel Island Lake Road off of the ROW on County Forest property. Two culverts may be installed for drainage. This trail will be snowmobile only and native soil will be used for shaping.

Snaketrack Rd is a County Forest road and is only plowed when and where needed for logging operations. It connects with funded trail 77.
