

## Wisconsin Diesel Funding Opportunities

- 1. U.S. EPA Clean Diesel Rebates- School Bus Rebate:** EPA offers rebates in addition to grants to reduce harmful emissions from older, dirtier diesel vehicles. The rebate program has funded vehicle replacements or retrofits for over 600 vehicles to date. Typically, the rebate application period opens in the fall and projects are completed in less than one year. More information at <https://www.epa.gov/cleandiesel/clean-diesel-rebates>
- 2. Congestion Mitigation & Air Quality Program:** Public Fleets operating in the WI non-attainment and Maintenance counties eligible for a variety of diesel related projects. Applications open in odd years. More information at <http://wisconsindot.gov/Pages/doing-bus/local-gov/astnce-pgms/aid/cmaq.aspx>
- 3. Wisconsin Diesel Truck Idling Reduction Program:** The Wisconsin Department of Administration provides grant funding to reduce diesel truck idling. DOA provides grants to freight motor carriers (common, contract and private motor carriers) headquartered in Wisconsin to purchase and install idling reduction units for newer truck tractors. More information at [https://doa.wi.gov/Pages/LocalGovtsGrants/Diesel\\_Truck\\_Idling\\_Reduction\\_Grant\\_Program.aspx](https://doa.wi.gov/Pages/LocalGovtsGrants/Diesel_Truck_Idling_Reduction_Grant_Program.aspx)
- 4. EPA Clean Diesel National Grants:** Eligible diesel emission reduction solutions include verified emission control technologies such as exhaust controls, cleaner fuels, and engine upgrades, verified idle reduction technologies, verified aerodynamic technologies and low rolling resistance tires, certified engine replacements, and/or certified vehicle or equipment replacement. Eligible entities include regional, state, or local agencies, tribal governments (or intertribal consortia) and native villages, or port authorities, which have jurisdiction over transportation or air quality, and nonprofit organizations or institutions that: a) represent or provide pollution reduction or educational services to persons or organizations that own or operate diesel fleets or b) have, as their principal purpose, the promotion of transportation or air quality.
