Wis. Stats 281.61 (8)(bl) mandates that in any biennium, no applicant may receive more than 25% of the amount of financial assistance planned to be provided for projects for that biennium. For the 2025-2027 biennium, the 25% limit is \$95,000,000.

The Safe Drinking Water Act (SDWA) requires 15% of available funds to be allocated to systems serving a population of less than 10,000. This funding list allocates 50.0% of available funds to these systems.

¹ Designated as a Federal Equivalency project.

² Municipalities allocated \$1,600,000 in general PF; the maximum PF amount allowed for a single municipality.

³ Financial Need Points are calculated at 15% of the PF points that are awarded in the "Total PF Points" column.

⁴ Project Points represent the number of priority points that were calculated through the PERF score. This score excludes any points based off of financial need.

⁵ The BIL Principal Forgiveness column represents the amount of PF an applicant has been allocated through the BIL--Emerging Contaminants Program

⁶ Project is last on the funding list to be allocated principal forgiveness. Project is allocated the remaining PF amount and may be eligible to receive more PF if it becomes available.

⁷ Green Tier Legacy Community; Project is eligible for an additional 10% PF, up to a maximum of 70%
