Notes for SDWLP SFY 2027 Funding List

This document is intended to provide important information related to the projects included on the Safe Drinking Water Loan Program (SDWLP) State Fiscal Year (SFY) 2027 Funding List. The list includes projects for which municipalities submitted a financial assistance application by the June 30, 2026 deadline.

Emerging Contaminants (EC) Project Types

EC1 = Projects concerned with treating an existing source of water.

EC2 = Projects concerned with developing a new source of water.

Base Project Footnotes

Section 281.61 (8)(bL), Wis. Stats., mandates that in any biennium, no applicant may receive more than 25% of the amount of financial assistance planned to be provided for projects for that biennium. For the 2025-2027 biennium, the 25% limit is $95,000,000.

The Safe Drinking Water Act (SDWA) requires 15% of available funds to be allocated to systems serving a population of less than 10,000. This funding list allocates 49.3% of available funds to these systems.

1. Federal equivalency project - If the DNR designates one or more of your projects as federal equivalency, your municipality must meet some additional federal requirements for those projects. For details, refer to the DNR's Federal Equivalency webpage.

2. Municipalities allocated $1,600,000 in general principal forgiveness (PF); the maximum PF amount allowed for a single municipality.

3. Financial need points are calculated at 15% of the PF points that are awarded in the total PF points column.

4. Project points represent the number of priority points that were calculated through the priority evaluation and ranking formula (PERF) score. This score excludes any points based off of financial need.

5. The BIL-EC PF column represents the amount of PF an applicant has been allocated through the Bipartisan Infrastructure Law (BIL)-Emerging Contaminants Program.

6. Project is last on the funding list to be allocated principal forgiveness. Project is allocated the remaining PF amount and may be eligible to receive more PF if it becomes available.

7. Green Tier Legacy Community; Project is eligible for an additional 10% PF, up to a maximum of 70%.

Principal Forgiveness

For additional information about PF, refer to the DNR's Principal Forgiveness webpage. Principal forgiveness policies are described in detail in the annual intended use plan that is available on the DNR's Project Lists and Intended Use Plans webpage.

EC Project Footnotes

1. Designated as a federal equivalency project.

2. Project will be funded through BIL Small and Disadvantaged Communities program for Emerging Contaminants (EC-SDC) funding.

3. Financial need points are calculated at 50% of the PF points awarded in the total PF points column on the main funding list.

4. Project points represent the number of priority points that were calculated through the PERF score. This score excludes any points based off of financial need.

5. All SFY 2027 emerging contaminants applicants qualify for a 70% principal forgiveness rate.

6. Project received a partial principal forgiveness allocation and may be eligible to receive additional PF if it becomes available.

Supplemental Applications

Complete, eligible applications received after the submittal deadline will be eligible for loan funding, if available, and will **not** be eligible for general principal forgiveness.

Column Headings and Descriptions

For descriptions that explain the columns on the funding list, refer to SDWLP Funding List Column Descriptions (PUB-CF-070).

Abbreviations and Acronyms

The brief project description may include one or more of the following abbreviations or acronyms.

Chem - chemical

Cl - chlorine

CME - construction management engineer

Con.Main - conduit/connection main

CT - census tract

EC - emerging contaminants

EC1 - Projects concerned with treating an existing source of water

EC2 - Projects concerned with developing a new source of water

Fe - iron

GAC - granular activated carbon

LSL - lead service line

Mang - manganese

MHI – median household income

Mn - manganese

NA - not applicable of not available

PERF - priority evaluation and ranking formula

PF – principal forgiveness

PFAS - perfluoroalkyl and polyfluoroalkyl substances

SCADA - supervisory control and data acquisition (system)

TBA - to be announced

TBD - to be determined

TOC - total organic carbon

UV - ultraviolet

WM - water main

WTP - water treatment plant

Contact Information
