

Air Emissions Inventory (EI) – Deleting a Device and/or Process

July 2021

General

1. A device and/or process is deleted when it will never be active again.
2. Devices and/or processes can only be deleted by a facility's compliance inspector or the Stationary Source Emissions Inventory Coordinator (SSEIC).
3. If a device is deleted, all processes at the device are deleted too.
4. After a device and/or process is deleted, the associated device and/or process IDs cannot be reused.

Deleting a device and/or process

1. To delete a device, email the compliance inspector or the SSEIC the facility ID, device ID and end date.
2. To delete a process, email the compliance inspector or the SSEIC the facility ID, device ID, process ID and end date.
3. Requests by regular mail will also be accepted though not preferred.

For EI and Air Reporting Switchboard Help

- Contact the facility-assigned compliance engineer. On the DNR's website, find the compliance engineer's contact information by using the [AIR PERMIT SEARCH](#) tool to locate the facility and select the DNR Air Contacts tab.
