Availability of the Proposed SIP Documents

Background information and proposed documents related to the SIP submittal can be downloaded at <http://dnr.wi.gov/topic/AirQuality/Input.html> or hard copies can be obtained, free of charge, by contacting Olivia Salmon as indicated below.

Background

The DNR developed the proposed SIP revision requesting that EPA redesignate the Wisconsin portion of the Chicago-Naperville, IL-IN-WI, nonattainment area to attainment for the 2008 8-hour ozone National Ambient Air Quality Standard (NAAQS). The Chicago-Naperville nonattainment area for the 2008 ozone NAAQS consists of the eastern portion of Kenosha County in Wisconsin and all or portions of 10 counties in Illinois and Indiana. Based on air quality monitoring data, the entire Chicago-Naperville nonattainment area has demonstrated attainment of the 2008 ozone NAAQS for the years 2019 through 2021. This proposed SIP submittal demonstrates that all applicable provisions of the Clean Air Act regarding redesignation to attainment have been met for the Kenosha County portion of the Chicago-Naperville nonattainment area.

Action Subject to Comment

The DNR is soliciting comment on this proposed SIP submittal.
