The Wisconsin Department of Natural Resources (DNR) Air Program and U.S. Environmental Protection Agency (EPA) Region 5 Office in Chicago are offering an Air Permit Public Engagement Training webinar. The training will explain the stages of environmental rule development, facility-specific permit reviews and where public input can impact outcomes.

Registration:

Pre-registration for the event is required. Hard copies of the materials are available upon request.

JULY
25

Registration Opens.

AUG
25

Deadline to request hard
copies of materials.

SEP
10

Registration Deadline.

Webinar Agenda

DAY
1

- Public input steps in state government.
- Community organizing and strengthening partnerships.
- How to find air permit documents.

DAY
2

- What is the permit review process.
- Drafting effective comments.
- Opportunity for feedback and discussion of air permit documents.

Copies of Materials:

The training will include a review of an example permit and supporting documents. Permit documents can be lengthy. Participants may request a hard copy in advance to be sent by the mail.
