-------	---	--------

- CCLR is an EPA-funded Technical Assistance to Brownfields Communities (TAB) provider, and a national non-profit dedicated to facilitating the sustainable and equitable reuse of underutilized land.
- In 2017, we absorbed the National Association for Local Government Environmental Professionals.
- Last September, we organized the first National Brownfields Leadership Summit in Washington, D.C. Resources and materials are available here.
- Participants were vocal about wanting an opportunity to more directly influence the federal budgeting process. On September 17-18, 2019, CCLR organized a planning session in Washington, D.C to shape a 2020 Leadership Summit.
- The second National Brownfields Leadership Summit will take place in D.C. in March 2020 (date and location TBA) and will feature exclusive discussions with brownfield policy leaders and experts, in addition to hands-on opportunities to shape advocacy activities in 2020.
- The Summit will also function as a meeting of the National Brownfields Coalition, which is managed by CCLR and Smart Growth America.
