

Summary of Issues Identified at VPLE Review Subcommittee Meeting
July 25, 2018:

The following VPLE topics were identified at the first VPLE Review Subcommittee meeting as potentially warranting additional evaluation/discussion:

1. VPLE eligibility and process
2. Future risk including emerging contaminants
3. Insurance; evaluate existing insurance for groundwater natural attenuation and potential to expanded or change coverage.
4. Scope of Coverage under COC
5. Why do participants use/not use VPLE? How could program modified to promote participation? Are there misperceptions and actions to correct those misperceptions?
