

Clarify material requirements;

- Unrestricted (definitive)
- Relocated with restrictions (develop guidelines, requires approval)
- Landfill disposal required

Unrestricted Classification Parameters

Volatile Organic Compounds (VOCs) – must be below reporting limits

Arsenic – Must be below statewide background levels, unless a release is suspected. A Low-hazard Exemption (LHE) is required to move material from an area of higher contamination to lesser contamination.

Lead – Must be below statewide background levels, unless a release is suspected. A Low-hazard Exemption (LHE) is required to move material from an area of higher contamination to lesser contamination.

All metals - Must be below statewide background levels (if developed), unless a release is suspected. A Low-hazard Exemption (LHE) is required to move material from an area of higher contamination to lesser contamination.

Polycyclic Aromatic Hydrocarbons (PAHs) – Must be below residential direct contact levels and groundwater residual contaminant levels for individual compound standards.

Polychlorinated Biphenyls (PCBs) – must be below reporting limits.

Other?

*samples should be analyzed for parameters that are suspected released contaminants

Relocated with Limitations

CONTROLLING FACTORS	PARAMETERS					
		VOCs	PAHs	Metals	PCBs	Other
	< 4' bgs	<Residential Direct Contact RCL	<Residential Direct Contact RCL	<Residential Direct Contact RCL	<Residential Direct Contact RCL	
	> 4' bgs	<Groundwater RCL	<Groundwater RCL	<Groundwater RCL	<Groundwater RCL	
	Below GW	NA	NA	NA	NA	
	Under Structure – Residence	Probably NA	<Groundwater RCL	<Groundwater RCL	<Groundwater RCL	
	Under Structure – Non Residential	Case by case	<Groundwater RCL	<Groundwater RCL	<Groundwater RCL	
	Under Structure-Roadway/Parking lot	Case by case	<Groundwater RCL	<Groundwater RCL	<Groundwater RCL	
Large receiving site (NMM)	Per reclamation plan or case by case	Per reclamation plan or case by case	Per reclamation plan or case by case	Per reclamation plan or case by case		

Relocation Restricted to Licensed Landfill Disposal

VOC – hazardous/contained out level

Metals – TCLP exceeded

PCB --

PAH –
