

# Dredging/Sediment Management Guidance Update

# Approach

Split current guidance document into two separate documents

1. Remediation
2. Navigation/Recreational

# Remediation

Includes sites with...

- a. Responsible parties (i.e. examining water pathway per NR 700 requirements)
- b. No responsible parties (i.e. orphan/legacy sites)

# Navigation/Recreational

NOT remediation sites. Includes sites with...

- a. Sediment not contaminated, or no suspected contamination (simplest site) – 347 waivers granted
- b. Sediment contaminated (sampled) or suspected contamination

# For each document

Appendix with compilation of resources for sediment sampling and analysis
